

Please, for the good of the people, for unbiased reporting, and to preserve the fairness of democracy, do not allow Sinclair Broadcasting to air an anti-Kerry documentary "Stolen Honor" days before the election or any other day.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. This is clearly a case of biased reporting and subversive electioneering which is meant to sway voters at the last minute. There couldn't be much less reprehensible of an action, using their power to reach 25% of American homes and issue a message that is clearly partisan.

As I understand it, this is a violation of Federal election laws.

For the good of our country and to uphold the fairness of democracy please allow the American public to decide this election with just the facts and not this clearly partisan attempt at subversive influence.

PLEASE show us some backbone, and don't let your own partisan views sway you on this decision. Do what is right for democracy, what is right for American liberty and equality and justice for all.

Thank you,
Susan Stearns
